

SING EASY PL-S15

15" PASSIVE SUBWOOFER

The Sing Easy PL-S15 is a system designed to add powerful subwoofer output to Sing Easy's full-range speakers. Equipped with a newly designed 15" high-power driver unit, it is the best low-frequency supplement for full-range speakers. When the sound reinforcement system needs to increase the power reserve and expand the low frequency of the system, the PL-S15 is your ideal choice.

PL-S15 is one of the best choices for you to hold mid-size performances, nightclubs, discos, mid-size KTV rooms, conference halls, multi-purpose halls and other projects!
