

## 3-WAY FULL-RANGE LOUDSPEAKER SYSTEM

The RK-L10 series is a 3-way full-range loudspeaker with 5 drivers in total, 2 paper cone tweeters, 2 mid-ranges and a large dynamic woofer driver.

The high-frequency driver uses a double 3-inch compression driver for a wide and clear frequency response, the mid-frequency driver uses a double 3-inch compression driver for clear voice and the low-frequency driver uses a large dynamic high-performance driver. The unique air vent design of the cabinet enables the entire speaker system to output up to 400W of peak power.

The excellent unit configuration and optimized crossover electrical design make the speakers extremely expressive, with good low-frequency dive, and with 70° x 60° coverage pattern provides smooth, even coverage whether used in the vertical or horizontal orientation.

### FEATURES

- Karaoke sound reinforcement
- Suitable for any kind of restaurant, bar, live house, night clubhouse, karaoke room or any home entertainment room

### SPECIFICATIONS

Low-Frequency Driver	Single 10" (260 mm) woofer driver
Mid Frequency Driver	Dual 3" (82 mm) mid-range drivers
High-Frequency Driver	Dual 3" (82 mm) paper cone tweeter drivers
Frequency Response (-3 dB)	50 Hz to 20 KHz
Sensitivity (1w@1m)	92 dB
Crossover Frequency	12 dB/Octave 1.6 KHz
Nominal Impedance	8 ohms
Power Ratings	Nominal 200W / Continuous 350 W / Peak 400 W
SPL Output	110 dB
Suspension/Mounting	20 x M8 Suspension points
Input Connectors	2 x Speakon NL4MP
Enclosure Color	Black enclosure with red stripes (stripes color may vary)
Enclosure	MDF Wood
Finish	Environmentally friendly water-based paint
Dimensions (H×W×D)	306 x 520 x 300 mm
Packing Dimensions (H×W×D)	690 x 575 x 380 mm
Weight	10.5 Kg / each
Packing Weight	23.5 Kg

### AVAILABLE COLORS

RK-L10B (standard color)

RK-L10W (available on request)

**Note:** Speaker grill cloth mesh is also available in white color.
